

Fanvil X Series Color LCD Phones

The best choice for business communication

The X Series is Fanvil's 4th generation IP phones. In addition to providing the rich experience of VoIP, the X Series is upgraded with two screens, the main is an aesthetic colored one and the second is purposed for functionality and ease-of-use. The Series covers all spectrums, from SMB and entry-level to enterprise and high-need phones. Fanvil provides users with the best user experience to meet all needs for IP communications equipment, especially the enterprise market.

EHS

HD Voice

With the support of the world's leading technology as well as Fanvil's R&D capabilities, service systems and 15+ years of experience in voice developing, X series is able to provide leading voice quality and the best user experience in the VoIP industry.

Color LCD & DSS Map

High-resolution color display LCD is one of the most exciting highlights of X Series, but not the only one. Fanvil's X Series is dedicated to improving work efficiency, with the friendly GUI and LCD expansion.

4.3" Color Display

2x2.8 DSS Color Screen

Bluetooth/ EHS Wireless Headset

The X Series is perfectly compatible with Sennheiser and Jabra headsets; Bluetooth & EHS wireless headset functions help the X Series to meet users' request for wireless communication.

Additional Functions:

To improve efficiency, the X Series provides additional features:

1. Hotspot: some phones can share the same number when they are registered on a server. In this case, each phone can then register to a different extension and still dial, transfer, conference, etc independently.

2. Log-in web management via mobile: the user can log-in to web management and configure his IP Phone easily with a mobile phone by simply scanning a QR code.

X2, The Professional Call Center IP Phone

The X2 has a professional design and foot paddle switch with more advanced functions; this model is perfect for the call center market. Fanvil is dedicated to providing telecom equipment that is high-efficiency and gives an excellent user experience for call center customers.
